

OFF HOURS

— *Visual Research & Material Direction*

A digital compilation of analog mood boards, fabric trials, and spatial compositions curated during Autumn/Winter development cycles.

Tactility of natural fibers, organic cotton weaves, worn indigo denim, and structural modern tailoring.

PLATE 01 / RIBBED THERMAL

Washed Ecru

Everyday pieces with character.

We build for life lived quietly in between the markers of active work. Tailored but unrestrictive shapes. Fabrics that take on memory, fading naturally, adjusting to the contour of the owner. A personal wardrobe developed across seasons, intended for constant rotation.

ARCHIVAL NOTE:

Proportions focus heavily on ease of movement. Shoulder seams are dropped by an average of 4cm across outerwear, while trouser rises are lengthened to sit comfortably on the mid-hip. Layers are intended to nest without crowding the armpits.
